

Leffek Industrie-Service GmbH & Co.KG is a manufacturer of durable consumer and capital goods, which are often sensitive in high-availability industrial production line used. Failure and downtime of the machines or equipment by not only a time delay to procure spare parts, can affect your company's success massively.

As a manufacturer of these key products, we are aware of this responsibility and will face the manufacturing technology and organizational task of spare parts.

We ensure effective supply of spare parts so that your part is an efficient and trouble-free as possible production possible. The sensitive link between you as a customer and make us in the case of a necessary supply of spare parts logistics companies operating internationally.

Because of good experiences, we work together with companies as Schenker, DHL Vertriebs GmbH & Co. OHG, Emons Spedition GmbH and TNT Express GmbH for example.

If necessary, we also offer customized, practical parts packages of wear parts that support your inspection work efficiently.
